SECTION I. GENERAL INFORMATION

A. INTRODUCTION

This request for proposal is issued by the Clinical Services Division, Drug and Alcohol Branch New Beginnings Program at the Guam Behavioral Health and Wellness Center, 790 Governor Carlos Camacho Road, Tamuning, Guam 9691 3.

Overview. Formerly the Department of Mental Health and Substance Abuse (DMHSA), the Guam Behavioral Health and Wellness Center (hereinafter known as the GBHWC) is requesting professional services from non-profit organizations to provide residential rehabilitation and social detoxification substance treatment for adult males. The services are federally and locally funded (Substance Abuse Prevention & Treatment Block Grant, CFDA No. 93.959, and 10 GCA Section 86109).

Organizations interested in bidding for this project may submit proposals that are directed towards male adults. The service providers must be experienced with Level 3.5 residential services and Level 3.2-D social detoxification services as specified by the American Society of Addiction Medicine (ASAM) Patient Placement Criteria, 3rd Revision. This project puts into action the GBHWC's Strategic Planning goals to build capacity in the community for substance abuse services, and provide consumer-centered and family-centered services that are culturally compatible with the island community. In addition, it is consistent in carrying-out the GBHWC's mandate to provide alcohol and drug programs and services for the people of Guam and to encourage the development of privately-funded community based programs to carry-out such programs and services (10 GCA §86101). Finally, it complies with planning, carrying-out, and evaluating activities to prevent and treat substance abuse (45 CFR Part 96) as funded by the Substance Abuse Prevention and Treatment (SAPT) Block Grant.

Background. The GBHWC is Guam's Single State Authority (SSA) for mental health and substance abuse services and is mandated by local law (10 GCA §86101 & §86109; added by P.L. 17-21) to provide substance abuse inpatient and outpatient services, as well as to support community or faith-based organizations through partnering to provide such services. The GBHWC is thereby specifically mandated to create a Guam Drug and Alcohol Detoxification, Rehabilitation, and Prevention Grant Program **“for the purpose of providing annual grants to local non-profit organizations providing drug and alcohol detoxification, rehabilitation, and**

prevention services”. (10 GCA §86109) It is the intent of GBHWC to award a contract to one of the highest qualified offerors for up to three years.

Objectives. One of the primary objectives of the Drug and Alcohol Branch of the GBHWC is to increase treatment capacity through collaboration and leveraging of resources with community providers and to address gaps in services identified by Guam and its stakeholders. The GBHWC has adopted the following national goals for substance abuse treatment capacity:

- Increase the number of treatment programs using evidence-based practices;
- Increase the percentage of people with substance abuse problems who receive treatment;
- Improve treatment outcomes for people receiving services; and
- Make cultural adaptations to evidence-based models and practices for optimal use.

Programs Guidelines. The Drug and Alcohol Branch New Beginnings Program currently provides and supports an array of comprehensive outpatient and residential drug and alcohol treatment programs and services for adolescents and adults. The Branch chose the American Society of Addiction Medicine Patient Placement Model-3R (ASAM PPC-3R) as the primary reference guide source for Guam’s substance treatment Continuum of Care. The Patient Placement Criteria (PPC) are guidelines (see: <http://www.asam.org/publications/patient-placement-criteria> and are incorporated herein as if fully rewritten) developed by the American Society of Addiction Medicine (ASAM) that can be accurately used to assess the severity of patients' problems, so that they can be admitted to the most appropriate level of care (admission criteria), remain in that level of care (continuing care criteria) and be discharged from that level of care (discharge criteria).

The Branch currently provides Level 0.5 Early Intervention Services/Drug and Alcohol Education while other community and faith-based organizations provide Level I Outpatient, and Level II.1 Intensive Outpatient (ASAM PPC-3R); Residential ASAM Level III.5 and III.2-D Treatment. The Guam Memorial Hospital and Guam Regional Medical City Hospital provides Level IV for consumers needing (acute care) medical detoxification. This allows consumers to move from one level of care to another, depending on their intensity of services needed and as determined by a bio-psychosocial assessment (based on six patient problem areas: ASAM dimension model).

In an effort to address the current gaps in service for residential rehabilitation and social detoxification substance treatment, the GBHWC has adopted a proactive approach by working with the various community stakeholders. Collaborative efforts through mediums like the GBHWC Strategic Public Planning Meetings, Community Substance Abuse Planning and

Development Group (CSAPD) monthly meetings, and the Guam Homeless Coalition, have provided opportunities to bring the community partners together.

Commitment. Therefore, the GBHWC is committed and in support of providing expanded treatment capacity for residential rehabilitation and social detoxification substance treatment services on Guam. The services must address adult males. The service proposals must meet the criteria for services as defined in the scope of work to increase treatment capacity of the various treatment modalities needed for the community of Guam. When the capacities of these levels of care are increased, the number of consumers currently on the wait-list for services is expected to reduce significantly while providing more timely treatment, fulfilling a national recommendation from the Center of Substance Abuse Treatment (CSAT), Substance Abuse Mental Health Services Administration (SAMHSA), U.S. Department of Health & Human Services, a block grant funder for Guam.

The GBHWC will negotiate a contract with the highest best-qualified responsive offeror for the required services at compensation determined in writing to be fair and reasonable. The contract negotiations will be directed toward:

1. Making certain that the offeror has a clear understanding of the scope of work, specifically, the essential requirements involved in providing the required services.
2. Determining that the offeror will make available the necessary personnel to perform the services within the required time.
3. Agreeing upon compensation which is fair and reasonable within the local market, taking into account the estimated value of the required services, and the scope, complexity, and nature of such services.

F. RIGHT TO REJECT OFFERS AND CANCEL THE PROCUREMENT

The GBHWC shall have the right to reject all offers, and or individual offerors in whole or in part, and/or cancel this RFP, if it is determined to be in the best interest of the GBHWC.

G. FAILURE TO NEGOTIATE CONTRACT WITH OFFERORS INITIALLY SELECTED AS BEST QUALIFIED:

If compensation, contract requirements, and contract documents cannot be agreed upon with the best qualified, responsive offeror, a written record stating the reasons therefore shall be placed in the file; and, the GBHWC will advise such offeror of the termination of negotiations which shall be confirmed by written notice within three days. Upon failure to negotiate a contract with the best qualified responsive offeror, the GBHWC will enter into negotiations with the next most qualified responsive offeror. If negotiations again fail, negotiations will be terminated as provided in this section and commence with the next qualified responsive offeror.

Should the GBHWC be unable to negotiate a contract with any of the offerors initially selected as the best qualified responsive offerors, offers may be resolicited or additional offerors may be selected based on original, acceptable submissions in the order of their respective qualification ranking, and negotiations may continue in accordance with the procedures and process herein specified.

***Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$15.00 per hour). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to contracts or contract-like instruments entered into with the federal government in connection with seasonal recreational services or seasonal recreational equipment rental for the general public on federal lands.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$4.80 per hour up to 40 hours per week or \$192.00 per week or \$832.00 per month

HEALTH & WELFARE EO 13706: \$4.41 per hour up to 40 hours per week or \$176.40 per

week or \$764.40 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706 Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; and 4 weeks after 3 years. Length of service includes the whole span of continuous service with the present contractor or successor wherever employed and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day Martin Luther King Jr.'s Birthday Washington's Birthday Memorial Day Juneteenth National Independence Day Independence Day Labor Day Columbus Day Veterans' Day Thanksgiving Day and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive administrative or professional capacity as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least \$27.63 per hour (or at least \$684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17) this wage determination may not include wage rates for all occupations within those job families. In such instances a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry and are not determinative of whether an employee is an exempt computer professional. To be exempt computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures including consulting with users to determine hardware software or system functional specifications;

(2) The design development documentation analysis creation testing or modification of computer systems or programs including prototypes based on and related to user or system design specifications;

(3) The design documentation testing creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14 2006)). Accordingly this wage determination will not

apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employee (40 hours a week) and Sunday is part of your regularly scheduled workweek you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** HAZARDOUS PAY DIFFERENTIAL ****

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance explosives and incendiary materials. This includes work such as screening blending dying mixing and pressing of sensitive ordnance explosives and pyrotechnic compositions such as lead azide black powder and photoflash powder.

All dry-house activities involving propellants or explosives. Demilitarization modification renovation demolition and maintenance operations on sensitive ordnance explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with or in close proximity to ordnance (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands face or arms of the employee engaged in the operation irritation of the skin minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving unloading storage and hauling of ordnance explosive and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance explosives and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract by the employer by the state or local law etc.) the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition where uniform cleaning and maintenance is made the responsibility of the employee all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount or the furnishing of contrary affirmative proof as to the actual cost) reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However in those instances where the uniforms furnished are made of "wash and wear" materials may be routinely washed and dried with other personal garments and do

not require any special treatment such as dry cleaning daily washing or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract by the contractor by law or by the nature of the work there is no requirement that employees be reimbursed for uniform maintenance costs.

**** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS ****

The duties of employees under job titles listed are those described in the ""Service Contract Act Directory of Occupations"" Fifth Edition (Revision 1) dated September 2015 unless otherwise indicated.

**** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE Standard Form 1444 (SF-1444) ****

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e. the work to be performed is not performed by any classification listed in the wage determination) be classified by the contractor so as to provide a reasonable relationship (i.e. appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification wage rate and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award the contractor prepares a written report listing in order the proposed classification title(s) a Federal grade equivalency (FGE) for each proposed classification(s) job description(s) and rationale for proposed wage rate(s) including information regarding the agreement or disagreement of the authorized representative of the employees involved or where there is no authorized representative the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action together with the agency's recommendations and pertinent information including the position of the contractor and the employees to the U.S. Department of Labor Wage and Hour Division for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt the Wage and Hour Division approves modifies or

disapproves the action via transmittal to the agency contracting officer or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request the ""Service Contract Act Directory of Occupations"" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember it is not the job title but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split combine or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."

SAMPLE BUSINESS ASSOCIATE AGREEMENT PROVISIONS

(Published January 25, 2013 by US Dept. of Health and Human Services)

Introduction

A “business associate” is a person or entity, other than a member of the workforce of a covered entity, who performs functions or activities on behalf of, or provides certain services to, a covered entity that involve access by the business associate to protected health information. A “business associate” also is a subcontractor that creates, receives, maintains, or transmits protected health information on behalf of another business associate. The HIPAA Rules generally require that covered entities and business associates enter into contracts with their business associates to ensure that the business associates will appropriately safeguard protected health information. The business associate contract also serves to clarify and limit, as appropriate, the permissible uses and disclosures of protected health information by the business associate, based on the relationship between the parties and the activities or services being performed by the business associate. A business associate may use or disclose protected health information only as permitted or required by its business associate contract or as required by law. A business associate is directly liable under the HIPAA Rules and subject to civil and, in some cases, criminal penalties for making uses and disclosures of protected health information that are not authorized by its contract or required by law. A business associate also is directly liable and subject to civil penalties for failing to safeguard electronic protected health information in accordance with the HIPAA Security Rule.

A written contract between a covered entity and a business associate must: (1) establish the permitted and required uses and disclosures of protected health information by the business associate; (2) provide that the business associate will not use or further disclose the information other than as permitted or required by the contract or as required by law; (3) require the business associate to implement appropriate safeguards to prevent unauthorized use or disclosure of the information, including implementing requirements of the HIPAA Security Rule with regard to electronic protected health information; (4) require the business associate to report to the covered entity any use or disclosure of the information not provided for by its contract, including incidents that constitute breaches of unsecured protected health information; (5) require the business associate to disclose protected health information as specified in its contract to satisfy a covered entity’s obligation with respect to individuals’ requests for copies of their protected health information, as well as make available protected health information for amendments (and incorporate any amendments, if required) and accountings; (6) to the extent the business associate is to carry out a covered entity’s obligation under the Privacy Rule, require the business associate to comply with the requirements applicable to the obligation; (7) require the business associate to make available to HHS its internal practices, books, and records relating to the use and disclosure of protected health information received from, or created or received by the business associate

on behalf of, the covered entity for purposes of HHS determining the covered entity's compliance with the HIPAA Privacy Rule; (8) at termination of the contract, if feasible, require the business associate to return or destroy all protected health information received from, or created or received by the business associate on behalf of, the covered entity; (9) require the business associate to ensure that any subcontractors it may engage on its behalf that will have access to protected health information agree to the same restrictions and conditions that apply to the business associate with respect to such information; and (10) authorize termination of the contract by the covered entity if the business associate violates a material term of the contract. Contracts between business associates and business associates that are subcontractors are subject to these same requirements.

This document includes sample business associate agreement provisions to help covered entities and business associates more easily comply with the business associate contract requirements. While these sample provisions are written for the purposes of the contract between a covered entity and its business associate, the language may be adapted for purposes of the contract between a business associate and subcontractor.

This is only sample language and use of these sample provisions is not required for compliance with the HIPAA Rules. The language may be changed to more accurately reflect business arrangements between a covered entity and business associate or business associate and subcontractor. In addition, these or similar provisions may be incorporated into an agreement for the provision of services between a covered entity and business associate or business associate and subcontractor, or they may be incorporated into a separate business associate agreement. These provisions address only concepts and requirements set forth in the HIPAA Privacy, Security, Breach Notification, and Enforcement Rules, and alone may not be sufficient to result in a binding contract under State law. They do not include many formalities and substantive provisions that may be required or typically included in a valid contract. Reliance on this sample may not be sufficient for compliance with State law, and does not replace consultation with a lawyer or negotiations between the parties to the contract.

During any period of time when you are subject to the requirement in paragraph 1 of this award term and condition, you must report proceedings information through SAM for the most recent five year period, either to report new information about any proceeding(s) that you have not reported previously or affirm that there is no new information to report. Recipients that have Federal contract, grant, and cooperative agreement awards with a cumulative total value greater than \$10,000,000 must disclose semiannually any information about the criminal, civil, and administrative proceedings.

6. Definitions

For purposes of this award term and condition:

- a. Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative proceedings, Civilian Board of Contract Appeals proceedings, and Armed Services Board of Contract Appeals proceedings). This includes proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include audits, site visits, corrective plans, or inspection of deliverables.
- b. Conviction, for purposes of this award term and condition, means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere.
- c. Total value of currently active grants, cooperative agreements, and procurement contracts includes:
 - 1) Only the Federal share of the funding under any Federal award with a recipient cost share or match; and
 - 2) The value of all expected funding increments under a Federal award and options, even if not yet exercised.

EXECUTIVE ORDER NO. 2022- 21

**RELATIVE TO IMPLEMENTING MASK WEARING REQUIREMENTS
AND PHYSICAL DISTANCING IN HEALTHCARE SETTINGS**

WHEREAS, on March 14, 2020, I, Lourdes A. Leon Guerrero, *I Maga'hågan Guåhan*, Governor of Guam, acting pursuant to the power provided by the Organic Act of Guam and the laws of Guam, declared a public health emergency on the island of Guam due to dangers posed by the 2019 novel coronavirus ("COVID-19"); and

WHEREAS, throughout the course of the pandemic on our island, we have implemented community-level restrictions for the purpose of mitigating the spread of infection, which fluctuated based on measurable COVID-19 metrics, including our daily new cases, test positivity rate, retransmission rate, and vaccination rate; and

WHEREAS, the ultimate goal of community-level restrictions was to manage hospitalizations and ensure the continued viability of our healthcare delivery system; and

WHEREAS, on February 25, 2022, the U.S. Centers for Disease Control and Prevention ("CDC") announced new metrics to monitor the transmission of COVID-19, using indicators that also focus on reducing medically significant illness and minimizing strain on the healthcare system; and

WHEREAS, the CDC Community Level metrics are intended to inform community actions and local decisions, including implementation and easing of restrictions, individual preventive behavior, testing strategies, and vaccine outreach; and

WHEREAS, the CDC Community Level metrics track the following items: the cumulative 7-day new COVID-19 cases per 100,000; the 7-day new hospital admissions per 100,000; and the percent of staffed inpatient beds occupied by COVID-19 patients. These metrics would, in turn, determine a jurisdiction's Community Level rank as low, medium, or high, with corresponding prevention recommendations for each category; and

WHEREAS, apart from Community Level recommendations that inform community restrictions, the CDC recommends that healthcare settings, such as hospitals and nursing homes, should continue to follow infection prevention and control recommendations; and

WHEREAS, the CDC's recommended practices in healthcare settings include infection prevention and control practices, such as encouraging vaccinations and boosters, posting visual alerts, establishing screening protocols, and implementing source control measures, such as the use of masks; and

WHEREAS, on May 2, 2022, in Executive Order No. 2022-13, based on Guam's Community Level of low according to CDC Community Level metrics, with the concurrence of the Department of Public Health and Social Services ("DPHSS"), and on the advice of the Guam National Guard Surgeon Cell and Physician's Advisor Group, I rescinded previous executive orders implementing mask-wearing requirements in public

settings, subject to applicable DPHSS guidance. I further noted that businesses may continue to require the wearing of masks in their facilities subject to local and federal law, and encouraged our people to continue wearing masks if they are immunocompromised, at high risk for severe illness, or if they prefer to do so; and

WHEREAS, since the rescission of local mask-wearing requirements, global cases of COVID-19 have surged once again, due to the emergence of the highly infectious Omicron BA.5 variant ("BA.5"); and

WHEREAS, though recent samples from Guam are pending genome sequencing at off-island laboratories, BA.5 cases have not been confirmed on our island; and

WHEREAS, notwithstanding the fact that BA.5 cases have not been confirmed in Guam, our island has experienced a surge in cases and a corresponding rise in hospitalizations for COVID-19; and

WHEREAS, as of the time of this writing, our COVID-19 Community Level is high, based on our 7-day new COVID-19 cases per 100,000, which is calculated at 466.1; the 7-day new hospital admissions per 100,000, currently at 23; and the percent of staffed inpatient beds occupied by COVID-19 patients, calculated at 8%; and

WHEREAS, twenty-nine (29) individuals are presently hospitalized for COVID-19, including two (2) in the intensive care unit; and

WHEREAS, in an effort to stabilize our healthcare system and ensure the continued delivery of care to our people, I strongly urge our community to wear their masks when they are indoors, whether at work, at restaurants, or at the grocery store. Mask-wearing is our new normal. It plays a key role in our community's strategy for living with COVID-19, and is one of the critical ways in which individuals can do their part to prevent the spread of infection; and

WHEREAS, further, with the strong concurrence of DPHSS, the Physicians Advisory Group, and the Guam National Guard Surgeon Cell, it is necessary at this time to implement CDC recommendations of mask-wearing and physical distancing in healthcare settings, to protect our healthcare employees, and the vulnerable members of our community who are in these settings seeking medical care; and

WHEREAS, as we enjoy our time with family and friends, and engage in activities with others in public places, it is important that we remember the responsibility we all have to one another, to keep each other safe. Mask-wearing is a simple yet impactful way to protect and support one another during this pandemic. It is my hope that all of us remain mindful of those we have lost to COVID-19 and those currently struggling with it, and the actions we can take to prevent or minimize the spread of this disease within our community.

SUBJECT: *Revised* Guidance for the Interim Final Rule - Medicare and Medicaid Programs;
Omnibus COVID-19 Health Care Staff Vaccination

Memorandum Summary

- CMS is committed to ensuring America's healthcare facilities respond effectively in an evidence-based way to the Coronavirus Disease 2019 (COVID-19) Public Health Emergency (PHE).
- On November 05, 2021, CMS published an interim final rule with comment period (IFC). This rule establishes requirements regarding COVID-19 vaccine immunization of staff among Medicare- and Medicaid-certified providers and suppliers.
- CMS is providing guidance and survey procedures for assessing and maintaining compliance with these regulatory requirements.
- The guidance in this memorandum does not apply to the following states at this time: Alabama, Alaska, Arizona, Arkansas, Georgia, Idaho, Indiana, Iowa, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Montana, Nebraska, New Hampshire, North Dakota, Ohio, Oklahoma, South Carolina, South Dakota, Texas, Utah, West Virginia and Wyoming. **Surveyors in these states should not undertake any efforts to implement or enforce the IFC.**

Background

Since the beginning of the Public Health Emergency, CMS and the Centers for Disease Control and Prevention (CDC) data show as of mid-October, over 44 million COVID-19 cases, 3 million COVID-19 related hospitalization, and 720,000 COVID-19 deaths have been reported. The CDC has reported that [COVID-19 vaccines are safe and effective](#) at preventing severe illness from COVID-19 and limiting the spread of the virus that causes it. On [December 11, 2020](#), the Advisory Committee in Immunization Practices (ACIP) recommended, as interim guidance, that both 1) health care personnel, and 2) residents of long-term care (LTC) facilities be offered COVID-19 vaccine in the initial phase of the vaccination program. To support this recommendation, on May 13, 2021, CMS published an interim final rule with comment period

Page 1 of 5

(IFC), entitled “Medicare and Medicaid Programs; COVID-19 Vaccine Requirements for Long-Term Care (LTC) Facilities and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICFs-IID) Residents, Clients, and Staff” (86 FR 26306). Also, CMS released guidance for surveyors and LTC facilities in the CMS memo, [QSO-21-19-NH](#), Interim Final Rule - COVID-19 Vaccine Immunization Requirements for Residents and Staff. This rule required all certified LTC facilities (i.e., nursing homes) to educate all residents and staff on the benefits and potential side effects associated with the COVID-19 vaccine, and offer the vaccine.

The regulation was intended to help increase vaccination rates among nursing home residents and staff to reduce the risk of infection and disease associated with COVID-19. Approximately two months after the publication of the rule, about 80 percent of nursing home residents were vaccinated. However, during that same time, roughly 60% of nursing home staff were vaccinated.¹ Therefore, more actions are warranted to increase vaccination rates among staff.

On [August 18, 2021](#), CMS announced that it would be issuing a regulation that all nursing home staff would have to be vaccinated against COVID-19 as a requirement for LTC facilities participating with the Medicare and Medicaid programs. Subsequently, on [September 9, 2021](#), CMS announced that this requirement would be extended to nearly all Medicare and Medicaid-certified providers and suppliers. These actions aim to support increasing vaccination rates among staff working in all facilities, providers, and certified suppliers that participate in Medicare and Medicaid.

Discussion

On November 5, 2021, CMS published an IFC with comment period (86 FR 61555), entitled “Medicare and Medicaid Programs; Omnibus COVID-19 Health Care Staff Vaccination,” revising the infection control requirements that most Medicare- and Medicaid-certified providers and suppliers must meet to participate in the Medicare and Medicaid programs. These changes are necessary to protect the health and safety of patients and staff during the COVID-19 public health emergency. The COVID-19 vaccination requirements and policies and procedures required by this IFC must comply with applicable federal non-discrimination and civil rights laws and protections, including providing reasonable accommodations to individuals who are legally entitled to them because they have a disability or sincerely held religious beliefs, practices, or observations that conflict with the vaccination requirement. More information on federal non-discrimination and civil rights laws is available here:

Vaccination Enforcement– Surveying for Compliance

Medicare and Medicaid-certified facilities are expected to comply with all regulatory requirements, and CMS has a variety of established enforcement remedies. For nursing homes, home health agencies, and hospice (beginning in 2022), this includes civil monetary penalties, denial of payments, and—as a final measure—termination of participation from the Medicare and Medicaid programs. The sole enforcement remedy for non-compliance for hospitals and certain other acute and continuing care providers is termination; however, , CMS’s primary goal is to bring health care facilities into compliance. Termination would generally occur only after providing a facility with an opportunity to make corrections and come into compliance.

¹ [COVID-19 Nursing Home Data - Centers for Medicare & Medicaid Services Data \(cms.gov\)](#)

CMS expects all providers' and suppliers' staff to have received the appropriate number of doses by the timeframes specified in the QSO-22-07 unless exempted as required by law, or delayed as recommended by CDC. **Facility staff vaccination rates under 100% constitute non-compliance under the rule.** Non-compliance does not necessarily lead to termination, and facilities will generally be given opportunities to return to compliance. Consistent with CMS's existing enforcement processes, this guidance will help surveyors determine the severity of a noncompliance deficiency finding at a facility when assigning a citation level. These enforcement action thresholds are as follows:

Within 30 days after issuance of this memorandum², if a facility demonstrates that:

- Policies and procedures are developed and implemented for ensuring all facility staff, regardless of clinical responsibility or patient or resident contact are vaccinated for COVID-19; **and**
- 100% of staff have received at least one dose of COVID-19 vaccine, or have a pending request for, or have been granted qualifying exemption, or identified as having a temporary delay as recommended by the CDC, the **facility is compliant under the rule;**
- or**
- Less than 100% of all staff have received at least one dose of COVID-19 vaccine, or have a pending request for, or have been granted a qualifying exemption, or identified as having a temporary delay as recommended by the CDC, the **facility is non-compliant under the rule.** The facility will receive notice³ of their non-compliance with the 100% standard. A facility that is above 80% **and** has a plan to achieve a 100% staff vaccination rate within 60 days would not be subject to additional enforcement action. States should work with their CMS location for cases that exceed these thresholds, yet pose a threat to patient health and safety. Facilities that do not meet these parameters could be subject to additional enforcement actions depending on the severity of the deficiency and the type of facility (e.g., plans of correction, civil monetary penalties, denial of payment, termination, etc.).

Within 60 days after the issuance of this memorandum⁴, if the facility demonstrates that:

- Policies and procedures are developed and implemented for ensuring all facility staff, regardless of clinical responsibility or patient or resident contact are vaccinated for COVID-19; **and**
- 100% of staff have received the necessary doses to complete the vaccine series (i.e., one dose of a single-dose vaccine or all doses of a multiple-dose vaccine series), or have been granted a qualifying exemption, or identified as having a temporary delay as recommended by the CDC, the **facility is compliant under the rule; or**
- Less than 100% of all staff have received at least one dose of a single-dose vaccine, or all doses of a multiple-dose vaccine series, or have been granted a qualifying exemption, or identified as having a temporary delay as recommended by the CDC, the **facility is non-**

² If 30 days falls on a weekend or designated federal holiday, CMS will use enforcement discretion to initiate compliance assessments the next business day.

³ This information will be communicated through the CMS Form-2567, using the applicable Automated Survey Process Environment (ASPEN) federal tag.

⁴ If 60 days falls on a weekend or designated federal holiday, CMS will use enforcement discretion to initiate compliance assessments the next business day.

compliant under the rule. The facility will receive notice⁵ of their non-compliance with the 100% standard. A facility that is above 90% **and** has a plan to achieve a 100% staff vaccination rate within 30 days would not be subject to additional enforcement action. States should work with their CMS location for cases that exceed these thresholds, yet pose a threat to patient health and safety. Facilities that do not meet these parameters could be subject to additional enforcement actions depending on the severity of the deficiency and the type of facility (e.g., plans of correction, civil monetary penalties, denial of payment, termination, etc.).

Within 90 days and thereafter following issuance of this memorandum, facilities failing to maintain compliance with the 100% standard may be subject to enforcement action.

Federal, state, Accreditation Organization, and CMS-contracted surveyors will begin surveying for compliance with these requirements as part of initial certification, standard recertification or reaccreditation, and complaint surveys 30 days following the issuance of this memorandum.

Surveying for staff vaccination requirements is not required on Life Safety Code (LSC)-only complaints, or LSC-only follow-up surveys. Surveyors may modify the staff vaccination compliance review if the provider/supplier was determined to be in substantial compliance with this requirement within the previous six weeks. Additional information and expectations for compliance can be found at the provider-specific guidance attached to this memorandum.

§ 485.904 Condition of participation: Personnel qualifications.

(c) *Standard: COVID-19 vaccination of center staff.* The CMHC must develop and implement policies and procedures to ensure that all center staff are fully vaccinated for COVID-19. For purposes of this section, staff are considered fully vaccinated if it has been 2 weeks or more since they completed a primary vaccination series for COVID-19. The completion of a primary vaccination series for COVID-19 is defined here as the administration of a single-dose vaccine, or the administration of all required doses of a multi-dose vaccine.

(1) Regardless of clinical responsibility or client contact, the policies and procedures must apply to the following center staff, who provide any care, treatment, or other services for the center and/or its clients:

- (i) Center employees;
- (ii) Licensed practitioners;
- (iii) Students, trainees, and volunteers; and
- (iv) Individuals who provide care, treatment, or other services for the center and/or its clients, under contract or by other arrangement.

(2) The policies and procedures of this section do not apply to the following center staff:

- (i) Staff who exclusively provide telehealth or telemedicine services outside of the center setting and who do not have any direct contact with patients and other staff specified in paragraph (c)(1) of this section; and
- (ii) Staff who provide support services for the center that are performed exclusively outside of the center setting and who do not have any direct contact with patients and other staff specified in paragraph (c)(1) of this section.

(3) The policies and procedures must include, at a minimum, the following components:

- (i) A process for ensuring all staff specified in paragraph (c)(1) of this section (except for those staff who have pending requests for, or who have been granted, exemptions to the vaccination requirements of this section, or those staff for whom COVID-19 vaccination must be temporarily delayed, as recommended by the CDC, due to clinical precautions and considerations) have received, at a minimum, a single-dose COVID-19 vaccine, or the first dose of the primary vaccination series for a multi-dose COVID-19 vaccine

prior to staff providing any care, treatment, or other services for the CMHC and/or its clients;

- (ii) A process for ensuring that all staff specified in paragraph (c)(1) of this section are fully vaccinated_for COVID-19, except for those staff who have been granted exemptions to the vaccination requirements of this section, or those staff for whom COVID-19 vaccination must be temporarily delayed, as recommended by the CDC, due to clinical precautions and considerations;
- (iii) A process for ensuring the implementation of additional precautions, intended to mitigate the transmission and spread of COVID-19, for all staff who are not fully vaccinated_for COVID-19;
- (iv) A process for tracking and securely documenting the COVID-19 vaccination status for all staff specified in paragraph (c)(1) of this section;
- (v) A process for tracking and securely documenting the COVID-19 vaccination status of any staff who have obtained any booster doses as recommended by the CDC;
- (vi) A process by which staff may request an exemption from the staff COVID-19 vaccination requirements based on an applicable Federal law;
- (vii) A process for tracking and securely documenting information provided by those staff who have requested, and for whom the CMHC has granted, an exemption from the staff COVID-19 vaccination requirements;
- (viii) A process for ensuring that all documentation, which confirms recognized clinical contraindications to COVID-19 vaccines and which supports staff requests for medical exemptions from vaccination, has been signed and dated by a licensed practitioner, who is not the individual requesting the exemption, and who is acting within their respective scope of practice as defined by, and in accordance with, all applicable State and local laws, and for further ensuring that such documentation contains
 - (A) All information specifying which of the authorized COVID-19 vaccines are clinically contraindicated for the staff member to receive and the recognized clinical reasons for the contraindications; and
 - (B) A statement by the authenticating practitioner recommending that the staff member be exempted from the CMHC's COVID-19 vaccination requirements for staff based on the recognized clinical contraindications;
- (ix) A process for ensuring the tracking and secure documentation of the vaccination status of staff for whom COVID-19 vaccination must be temporarily delayed, as recommended by the CDC, due to clinical precautions and considerations, including, but not limited to, individuals with acute illness secondary to COVID-19, and individuals who received monoclonal antibodies or convalescent plasma for COVID-19 treatment; and
- (x) Contingency plans for staff who are not fully vaccinated_for COVID-19.

GUIDANCE

DEFINITIONS

“Booster”: per [CDC](#), refers to a dose of vaccine administered when the initial sufficient immune response to the primary vaccination series is likely to have waned over time.

“Clinical contraindication” refers to conditions or risks that precludes the administration of a treatment or intervention. With regard to recognized clinical contraindications to receiving a COVID-19 vaccine, facilities should refer to the CDC informational document, *Summary Document for Interim Clinical Considerations for Use of COVID-19 Vaccines Currently Authorized in the United States*, accessed at <https://www.cdc.gov/vaccines/covid19/downloads/summary-interim-clinical-considerations.pdf>. For COVID-19 vaccines, according to the CDC, a vaccine is clinically contraindicated if an individual has a severe allergic reaction (e.g., anaphylaxis) after a previous dose or to component of the COVID-19 vaccine or an immediate (within 4 hours of exposure) allergic reaction of any severity to a previous dose or known (diagnosed) allergy to a component of the vaccine.

“Fully vaccinated” refers to staff who are two weeks or more from completion of their primary vaccination series for COVID-19.

“Good Faith Effort” refers to a provider that has taken aggressive steps toward achieving compliance with staff vaccination requirement **and/or** the provider has no or has limited access to vaccine, and has documented attempts to access to the vaccine.

“Primary Vaccination Series” refers to staff who have received a single-dose vaccine or all doses of a multi-dose vaccine for COVID-19.

“Staff” refers to individuals who provide any care, treatment, or other services for the CMHC and/or its clients, including employees; licensed practitioners; adult students, trainees, and volunteers; and individuals who provide care, treatment, or other services for the CMHC and/or its clients, under contract or other arrangement. This also includes individuals under contract or arrangement with the CMHC, including hospice and dialysis staff, physical therapists, occupational therapists, mental health professionals, licensed practitioners, or adult students, trainees or volunteers. **Staff would not include anyone who provides only telemedicine services or support services outside of the CMHC and who does not have any direct contact with clients and other staff specified in paragraph (c)(1).**

“Temporarily delayed vaccination” refers to vaccination that must be temporarily *deferred*, as recommended by CDC, due to clinical considerations, including *known COVID-19 infection until recovery from the acute illness (if symptoms were present) and criteria to discontinue isolation have been met* (<https://www.cdc.gov/vaccines/covid-19/downloads/summary-interimclinical-considerations.pdf>)

Background:

All CMHCs are required to achieve a 100% vaccination rate for their staff through the development of a policy to address vaccination applicable to all staff who provide any care, treatment, or other services for the CMHC and/or its clients.

There may be many infrequent services and tasks performed in or for a CMHC that is conducted by “one-off” vendors, volunteers, and professionals. CMHCs are not required to ensure the vaccination of individuals who very infrequently provide ad hoc non-healthcare services (such as annual elevator inspection), services that are performed exclusively off-site, and are not at or adjacent to any site of client care (such as accounting services), but they may choose to extend COVID-19 vaccination requirements to them if feasible. CMHCs should consider the frequency of presence, services provided, and proximity to clients and staff.

Surveying for Compliance

Surveyors will begin surveying *facilities from states identified in each memorandum* for compliance 30 days after issuance of the *applicable* memorandum. Surveyors *should* focus on the staff that regularly work in the CMHC (e.g., weekly), using a phased-in approach as described below.

NOTE: Facility staff who have been suspended or are on extended leave e.g., Family and Medical Leave Act (FMLA) leave, or Worker's Compensation Leave, would not count as unvaccinated staff for determining compliance with this requirement.

Surveying for staff vaccination requirements is not required on Life Safety Code (LSC)-only complaints, or LSC-only follow-up surveys. Surveyors may modify the staff vaccination compliance review if the facility was determined to be in substantial compliance with this requirement within the previous six weeks.

CMHCs will be expected to meet the following:

Vaccination Enforcement

CMS expects all facilities' staff to have received the appropriate number of doses by the timeframes specified in this memorandum unless exempted as required by law. **Facility staff vaccination rates under 100% constitute non-compliance under the rule.**

Within 30 days following the issuance of the *applicable* memorandum¹, if a facility demonstrates:

- Policies and procedures are developed and implemented for ensuring all facility staff, regardless of clinical responsibility or resident contact are vaccinated for COVID-19, including all required components of the policies and procedures specified below (e.g., related to tracking staff vaccinations, documenting medical and religious exemptions, etc.); **and**
- 100% of staff have received at least one dose of COVID-19 vaccine or have a pending request for, or have been granted a qualifying exemption, or are identified as having a temporary delay as recommended by the CDC, the **facility is compliant under the rule; or**
- Less than 100% of all staff have received at least one dose of COVID-19 vaccine, or have a pending request for, or have been granted a qualifying exemption, or are identified as having a temporary delay as recommended by the CDC, the **facility is non-compliant under the rule.** The facility will receive notice² of their non-compliance with the 100% standard. A facility that is above 80% **and** has a plan to achieve a 100% staff vaccination rate within 60 days would not be subject to additional enforcement action. States should work with their CMS location for cases that exceed these thresholds, yet pose a threat to patient health and safety. Facilities that do not meet these parameters could be subject to additional enforcement actions depending on the severity of the deficiency and the type of facility (e.g., plans of correction and termination.).

Within 60 days following the issuance of the *applicable* memorandum³, if a facility demonstrates:

¹ If 30 days falls on a weekend or designated federal holiday, CMS will use enforcement discretion to initiate compliance assessments the next business day.

² This information will be communicated through the CMS Form-2567, using the appropriate Automated Survey Process Environment (ASPEN).

³ If 60 days falls on a weekend or designated federal holiday, CMS will use enforcement discretion to initiate compliance assessments the next business day.

- Policies and procedures are developed and implemented for ensuring all facility staff, regardless of clinical responsibility or resident contact are vaccinated for COVID-19, including all required components of the policies and procedures specified below (e.g., related to tracking staff vaccinations, documenting medical and religious exemptions, etc.); **and**
- 100% of staff have received the necessary doses to complete the vaccine series (i.e., one dose of a single-dose vaccine or all doses of a multiple vaccine series) or have been granted a qualifying exemption, or are identified as having a temporary delay as recommended by the CDC, the **facility is compliant under the rule; or**
- Less than 100% of all staff have received at least one dose of COVID-19 vaccine, or have a pending request for, or have been granted a qualifying exemption, or are identified as having a temporary delay as recommended by the CDC, the **facility is non-compliant under the rule.** The facility will receive notice⁴ of their non-compliance with the 100% standard. A facility that is above 90% **and** has a plan to achieve a 100% staff vaccination rate within 30 days would not be subject to additional enforcement action. States should work with their CMS location for cases that exceed these thresholds, yet pose a threat to patient health and safety. Facilities that do not meet these parameters could be subject to additional enforcement actions depending on the severity of the deficiency and the type of facility (e.g., plans of correction and termination.).

Within 90 days and thereafter following issuance of the *applicable* memorandum, facilities failing to maintain compliance with the 100% standard may be subject to enforcement action.

Note: The requirements described above do not include the 14-day waiting period as identified by CDC for full vaccination. Rather these requirements are considered met with the completed vaccine series (i.e., one dose of a single dose vaccine, or final dose of a multi-dose vaccine series).

Policies and Procedures

The CMHC policies and procedures must be implemented within **30 days**⁵ *after the issuance of the applicable memorandum* and address each of the following components:

CMHCs must have a process for ensuring all staff (as defined above) have received at least a single-dose, or the first dose of a multi-dose COVID-19 vaccine series prior to providing any care, treatment, or other services for the facility and/or its patients.

The policy must also ensure those staff who are not yet fully vaccinated, or who have been granted an exemption or accommodation as authorized by law, or who have a temporary delay, adhere to additional precautions that are intended to mitigate the spread of COVID-19. This requirement is not explicit and does not specify actions that must be taken; there are a variety of actions or job modifications a facility can implement to potentially reduce the risk of COVID-19 transmission *examples including*, but *are* not limited to:

- Reassigning staff who have not completed their primary vaccination series to non client care areas, to duties that can be performed remotely (i.e., telework), or to duties which limit exposure to those most at risk (e.g., assign to clients who are not immunocompromised, unvaccinated);
- Requiring staff who have not completed their primary vaccination series to follow additional, [CDC-recommended precautions](#), such as adhering to universal source control and physical distancing measures

⁴ This information will be communicated through the CMS Form-2567, using the appropriate Automated Survey Process Environment (ASPEN).

⁵ If 30 days falls on a weekend or designated federal holiday, CMS will use enforcement discretion to initiate compliance assessments the next business day

in areas that are restricted from client access (e.g., staff meeting rooms, kitchen), even if the facility or service site is located in a county with low to moderate community transmission.

- Requiring at least weekly testing for exempted staff, and staff who have not completed their primary vaccination series, until the regulatory requirement is met, regardless of whether the facility or service site is located in a county with low to moderate community transmission in addition to following [CDC recommendations](#) for testing unvaccinated in facilities located in counties with substantial to high community transmission.
- Requiring staff who have not completed their primary vaccination series to use a NIOSH-approved N95 or equivalent or higher-level respirator for source control, regardless of whether they are providing direct care to or otherwise interacting with clients.

NOTE: This requirement is not explicit and does not specify which actions must be taken. The examples above are not all inclusive, and represent actions that can be implemented. However, facilities can choose other precautions that align with the intent of the regulation which is intended to “mitigate the transmission and spread of COVID-19 for all staff who are not fully vaccinated.”

Facilities may also consult with their local health departments to identify other actions that can potentially reduce the risk of COVID-19 transmission from unvaccinated staff.

The CMHC must track and securely document:

- Each staff member’s vaccination status (this should include the specific vaccine received, and the dates of each dose received, or the date of the next scheduled dose for a multidose vaccine);
- Any staff member who has obtained any booster doses (this should include the specific vaccine booster received and the date of the administration of the booster);
- Staff who have been granted an exemption from vaccination (this should include the type of exemption and supporting documentation); requirements by the CMHC; and
- Staff for whom COVID-19 vaccination must be temporarily delayed and should track when the identified staff can safely resume their vaccination.

Facilities that employ or contract staff who telework full-time (e.g., 100 percent of their time is remote from sites of resident care and staff who do work at sites of care) should identify these individuals as a part of implementing the facility’s policies and procedures, but those individuals are not subject to the vaccination requirements. Note, however, that these individuals may be subject to other federal requirements for COVID-19 vaccination. Facilities have the flexibility to use the tracking tools of their choice; however, they must provide evidence of this tracking for surveyor review. Additionally, facilities’ tracking mechanism should clearly identify each staff’s role, assigned work area, and how they interact with residents.

Vaccination Exemptions:

Facilities must have a process by which staff may request an exemption from COVID-19 vaccination based on an applicable Federal law. This process should clearly identify how an exemption is requested, and to whom the request must be made. Additionally, facilities must have a process for collecting and evaluating such requests, including the tracking and secure documentation of information provided by those staff who have requested exemption, the facility’s determination of the request, and any accommodations that are granted.

Note: Staff who are unable to furnish proper exemption documentation must be vaccinated or the facility must follow the actions for unvaccinated staff.

Medical Exemptions:

Certain allergies, or recognized medical conditions may provide grounds for an exemption. With regard to recognized clinical contraindications to receiving a COVID-19 vaccine, CMHCs should refer to the CDC informational document, *Summary Document for Interim Clinical Considerations for Use of COVID-19 Vaccines*

Currently Authorized in the United States, accessed at <https://www.cdc.gov/vaccines/covid-19/downloads/summary-interim-clinicalconsiderations.pdf>. In general, CDC considers a history of a severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a component of the COVID-19 vaccine, or an immediate allergic reaction of any severity to a previous dose, or known (diagnosed) allergy to a component of the COVID-19 vaccine, to be a contraindication to vaccination with COVID-19 vaccines.

Medical exemption documentation must specify which authorized or licensed COVID-19 vaccine is clinically contraindicated for the staff member and the recognized clinical reasons for the contraindication. The documentation must also include a statement recommending that the staff member be exempted from the CMHC's COVID-19 vaccination requirements based on the medical contraindications.

A staff member who requests a medical exemption from vaccination must provide documentation signed and dated by a licensed practitioner acting within their respective scope of practice and in accordance with all applicable State and local laws. The individual who signs the exemption documentation cannot be the same individual requesting the exemption.

CMHCs must have a process to track and secure documentation of the vaccine status of staff whose vaccine is temporarily delayed. CDC recommends a temporary delay in administering the COVID-19 vaccination *due to clinical considerations, including known COVID-19 infection until recovery from the acute illness (if symptoms were present) and criteria to discontinue isolation have been met.*

Non-Medical Exemptions, Including Religious Exemptions:

Requests for non-medical exemptions, such as a religious exemption in accordance with Title VII, must be documented and evaluated in accordance with each CMHC's policies and procedures. We direct CMHCs to the Equal Employment Opportunity Commission (EEOC) Compliance Manual on Religious Discrimination (<https://www.eeoc.gov/laws/guidance/section12-religious-discrimination>) for information on evaluating and responding to such requests.

Note: Surveyors will **not** evaluate the details of the request for a religious exemption, **nor** the rationale for the CMHC's acceptance or denial of the request. Rather, surveyors will review to ensure the CMHC has an effective process for staff to request a religious exemption for a sincerely held religious belief.

Accommodations of Unvaccinated Staff with a Qualifying Exemption: While accommodations could be appropriate under certain limited circumstances, no accommodation should be provided to staff that is not legally required. For individual staff members that have valid reasons for exemption facility can address those individually. An example of an accommodation for an unvaccinated employee with a qualifying exemption could include mandatory routine COVID-19 testing in accordance with OSHA and CDC guidelines, physical distancing from co-workers and patients, re-assignment or modification of duties, teleworking, or a combination of these actions. Accommodations can be addressed in the CMHC's policies and procedures.

Staff who have been granted an exemption to COVID-19 vaccination requirements should adhere to national infection prevention and control standards for unvaccinated health care personnel. For additional information see CDC's [Interim Infection Prevention and Control Recommendations for Healthcare Personnel During the Coronavirus Disease 2019 \(COVID-19\) Pandemic](#) webpage.

Regulatory Provisions implemented **60 days after issuance of the applicable memorandum:** Facilities must have a process for ensuring that all staff are fully vaccinated for COVID-19, except for those staff who have been granted exemptions to the vaccination requirements of this section, or those staff for whom COVID-19 vaccination must be temporarily delayed, as recommended by CDC, due to clinical precautions and considerations.

Contingency Plan

For staff that are not fully vaccinated, the CMHC must develop contingency plans for staff who have not completed the primary vaccination series for COVID-19.

Contingency plans should include actions that the CMHC would take when staff have indicated that they will not get vaccinated and do not qualify for an exemption, but contingency plans should also address staff who are not fully vaccinated due to an exemption or temporary delay in vaccination, such as through the additional precautions. Facilities should prioritize contingency plans for those staff that have obtained no doses of any vaccine over staff that have received a single dose of a multi-dose vaccine. For example, contingency plans could include a deadline for staff to have obtained their first dose of a multiple-dose vaccine. The plans should also indicate the actions the CMHC will take if the deadline is not met, such as actively seeking replacement staff through advertising or obtaining temporary vaccinated staff until permanent vaccinated replacements can be found.

Survey Process

Compliance will be assessed through observation, interview, and record review as part of the survey process.

1. Entrance Conference

- Surveyors will ask CMHCs to provide vaccination policies and procedures. At a minimum, the policy and procedures must provide:
 - A process for ensuring all required staff have received, at a minimum, the first dose of a multi-dose COVID-19 vaccine, or a one-dose COVID-19 vaccine, before staff provide any care, treatment, or other services for the CMHC and/or its clients;
 - A process for ensuring that all required staff are fully vaccinated; ○ A process for ensuring that the CMHC continues to follow all standards of infection prevention and control practice, for reducing the transmission and spread of COVID-19 in the CMHC, especially by those staff who are unvaccinated or who are not yet fully vaccinated;
 - A process for tracking and securely documenting the COVID-19 vaccination status for all required staff;
 - A process for ensuring all staff obtain any recommended booster doses, and any recommended additional doses for individuals who are immunocompromised, in accordance with the recommended timing of such doses;
 - A process by which staff may request a vaccine exemption from the COVID-19 vaccination requirements based on recognized clinical contraindications or applicable Federal laws, such as religious beliefs or other reasonable accommodations
 - A process for tracking and securely documenting information confirming recognized clinical contraindications to COVID-19 vaccines provided by those staff who have requested and have been granted a medical exemption to vaccination;
 - A process for ensuring that all documentation, which confirms recognized clinical contraindications to COVID-19 vaccines and which supports staff requests for medical exemptions from vaccination, has been signed and dated by a licensed practitioner, who is not the individual requesting the exemption, and who is acting within their respective scope of practice as defined by, and in accordance with, all applicable State and local laws, and for further ensuring that such documentation contains—
 - all information specifying which of the authorized COVID-19 vaccines are clinically contraindicated for the staff member to receive and the recognized clinical reasons for the contraindications; and
 - a statement by the authenticating practitioner recommending that the staff member be exempted from the CMHC's COVID-19 vaccination requirements for staff based on the recognized clinical contraindications;
 - A process for ensuring the tracking and secure documentation of the vaccination status of staff for whom COVID-19 vaccination must be temporarily delayed, as recommended by

the CDC, due to clinical precautions and considerations, including, but not limited to, individuals with acute illness secondary to COVID-19, or individuals who received monoclonal antibodies or convalescent plasma for COVID-19 treatment; and

- Contingency plans for staff that are not yet vaccinated for COVID-19 (and without an exemption for medical contraindications or without a temporary delay in vaccination due to clinical considerations as recommended by the CDC and as specified in paragraph (c)(3)(x)), including deadlines for staff to be vaccinated.
- The CMHC will provide a list of all staff and their vaccine status.
 - Including the percentage of unvaccinated staff, excluding those staff that have approved exemptions
 - If any concerns are identified with the staff vaccine status list, surveyors should verify the percentage of vaccinated staff.
 - The CMHC must identify any staff member remaining unvaccinated because it's medically contraindicated or has a religious exemption. ○ The CMHC must also identify newly hired staff (hired in the last 60 days).
 - The CMHC must indicate the position or role of each staff member
- *The CMHC will provide their process for how the CMHC ensures that their contracted staff are compliant with the vaccination requirement*

2. Record Review, interview, and observations:

- Surveyors will review the policy and procedure to ensure all components are present.
- Surveyors will review any contingency plan developed to mitigate the spread of COVID-19 infections by the CMHC that may include:
 - Requiring unvaccinated staff to follow additional, [CDC-recommended precautions](#), such as adhering to universal source control and physical distancing measures in areas that are restricted from client access (e.g., staff meeting rooms, kitchen), even if the facility or service site is located in a county with low to moderate community transmission.
 - Reassigning unvaccinated staff to non-client care areas, to duties that can be performed remotely (i.e., telework), or to duties which limit exposure to those most at risk (e.g., assign to clients who are not immunocompromised, unvaccinated);
 - Requiring at least weekly testing for unvaccinated staff, regardless of whether the facility or service site is located in a county with low to moderate community transmission
 - Requiring unvaccinated staff to use a NIOSH-approved N95 or equivalent or higher-level respirator for source control, regardless of whether they are providing direct care to or otherwise interacting with clients
- Surveyors will select a sample of staff based on current staff sample selection guidelines. Surveyors should also examine the documentation of each staff identified as unvaccinated due to medical contraindications. The sample should include (as applicable):
 - Direct care staff, *including those contracted staff meeting the definition of staff* (vaccinated and unvaccinated) ○ Contracted staff ○ Direct care staff with an exemption
- *There should be a minimum of 6 direct care/patient engagement staff. This includes direct care contracted staff that are onsite at time of the survey. Of this 6- person sample, 4 should include vaccinated staff/contractors and 2 unvaccinated staff/contractors (1 that is not fully vaccinated and 1 with a medical exemption or temporary delay.) Two of the direct care staff sampled should be contractors.*

- *The list of vaccinated staff maintained by the facility are used for sampling staff. Please refer to survey process for instructions for sampling contracted staff.*
- *Surveyors should choose a sample of at least of 2 contracted staff (1 vaccinated and 1 unvaccinated or exempt) who are not included in those direct care contracted staff outlined above.*
- For each individual identified by the CMHC as vaccinated, surveyors will:
 - Review CMHC records to verify vaccination status. Examples of acceptable forms of proof of vaccination include:
 - CDC COVID-19 vaccination record card (or a legible photo of the card),
 - Documentation of vaccination from a health care provider or electronic health record, or
 - State immunization information system record.
 - Conduct follow-up interviews with staff and administration if any discrepancies are identified. If applicable, determine if any additional doses were provided.

***NOTE:** Failure of contract staff to provide evidence of vaccination status reflects noncompliance and should be cited under the requirement to have policies and procedures for ensuring that all staff are fully vaccinated, except for those staff who have been granted exemptions or a temporary delay.*

- For each individual identified by the CMHC as unvaccinated, surveyors will
 - Review CMHC records
 - Determine, if they have been educated and offered vaccination
 - Interview staff and ask if they plan to get vaccinated if they have declined to get vaccinated and if they have a medical contraindication or religious exemption.
 - Request and review documentation of the medical contraindication.
 - Request to see employee record of the staff education on CMHC policy and procedure regarding unvaccinated individuals.
 - Observe staff providing care to determine compliance with current standards of practice with infection control and prevention.
- For each individual identified by the CMHC as unvaccinated due to a medical contraindication:
 - Review and verify that all required documentation is:
 - Signed and dated by physician or advanced practice provider
 - States the specific vaccine that is contraindicated and the recognized clinical reason for the contraindication with a statement recommending exemption.

Level of Deficiency

For instances of non-compliance identified through the survey process, the level of deficiency will be determined based on the following criteria: From 30-60 days following issuance of this memorandum, the expected minimum threshold for use in these determinations will be 80%. From 60-90 days following issuance of this memorandum, the expected minimum threshold will be 90%. From 90 days on, the expected minimum threshold will be 100%.

States should work with their CMS location for cases that exceed these thresholds, yet pose a threat to patient health and safety not otherwise addressed by the criteria below:

- **Immediate Jeopardy:**

- 40% or more of staff remain unvaccinated creating a likelihood of serious harm

OR

- Did not meet the 100% staff vaccination rate standard; observations of noncompliant infection control practices by staff, (e.g., staff failed to properly don PPE) **and** 1 or more components of the policies and procedures were not developed or implemented.

- **Condition Level-** ○ Did not meet the 100% staff vaccination rate standard; **and** ○ 1 or more components of the policies and procedures were not developed and implemented

OR, ○ 21-39% of staff remain unvaccinated creating a likelihood of serious harm.

- **Standard Level:**

- 100% of staff are vaccinated and all new staff have received at least one dose; **and** ○ 1 or more components of the policies and procedures were not developed and implemented

OR, ○ Did not meet the 100% staff vaccination rate standard, but are making good faith efforts toward vaccine compliance.

Plan of Correction

To Qualify for Substantial Compliance and Clear the Citation:

- The CMHC has met the requirement of staff fully vaccinated (either by staff obtaining additional doses, or replacing unvaccinated staff with vaccinated staff). **OR,**
- The combined number of staff that are vaccinated (have received a single dose of a vaccine or all of the doses in the multiple dose vaccine series or have received at least one dose of a multiple vaccine series) meet the requirement.
 - Staff that has received at least one dose must also have their second dose scheduled.

To Qualify for Substantial Compliance, but the Citation Remains at Standard Level:

- The CMHC has not met the requirement of staff vaccinated, but has provided evidence of the unvaccinated staff that have obtained their first dose, AND the remainder of the unvaccinated staff are scheduled for their first dose.

Components of a Plan of Correction AND/OR Actions Required for IJ Removal

Plans of correction or Immediate Jeopardy removal plans for noncompliance should be reviewed to ensure they include the following:

- Correcting any gaps in the facility's policies and procedures.
- Implementation of the facility's contingency plan, that should include a deadline for each unvaccinated staff to have received their first dose of a vaccine.
- Implementation of additional precautions to mitigate the spread of COVID-19 by unvaccinated staff.

Good-Faith Effort:

Surveyors and CMS may lower the citation level and/or enforcement action if they identify that any of the following have occurred **prior to the survey** (note: noncompliance is still cited, only the citation level and enforcement is adjusted).

- a. If the CMHC has no or has limited access to vaccine, and the CMHC has documented attempts to obtain vaccine access (e.g., contact with health department and pharmacies).
- b. If the CMHC provides evidence that they have taken aggressive steps to have all staff vaccinated, such as advertising for new staff, hosting vaccine clinics, etc.

Enforcement Actions

CMS will follow current enforcement procedures based on the level of deficiency cited during the survey.

The undersigned agrees by submitting this proposal that it will include, without modification, the clause titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion--Lower Tier Covered Transactions" in all lower tier covered transactions (i.e., transactions with subgrantees and/or contractors) and in all solicitations for lower tier covered transactions in accordance with 45 CFR Part 76.

3. Certifications Regarding Lobbying

Title 31, United States Code, Section 1352, entitled "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non-appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs (45 CFR Part 93).

The undersigned (authorized official signing for the organization) certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. (If needed, Standard Form-LLL, "Disclosure of Lobbying Activities," its instructions, and continuation sheet are available upon request form GBHWC or via the SAMHSA grant management website, forms.)

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, U.S.

Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

4. Certification Regarding Program Fraud Civil Remedies Act (PFCRA)

The undersigned (authorized official signing for the organization) certifies that the statements herein are true, complete, and accurate to the best of his or her knowledge, and that he or she is aware that any false, fictitious, or fraudulent statements or claims may subject him or her to criminal, civil, or administrative penalties. 5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The U.S. Department of Public Health Services strongly encourages all contract grant fund recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

6. Certification Regarding Non-Discrimination

Version: 202 - 1/6/2021 12:46 PM | Generated on: 2/2/2021 12:15 AM

This Notice of Award (NoA) approves the first incremental payment of Fiscal Year (FY) 2021. Awarded funds "Amount of This Action" are for the FY 2021 regular allotment only.

The "Federal Funds Approved" on page 3 includes the FY 2021 COVID Supplement allotment, however, no COVID Supplement funds are approved with this NoA. COVID supplement funds will be issued on a subsequent NoA.

FFR submission change:

Effective January 1, 2021, award recipients are required to submit the SF-425 Federal Financial Report (FFR) via the Payment Management System (PMS).

This change is applicable to the FFR due in December 2021 for the FY 2020 Award Period; and all reports thereafter.

If a recipient or recipient staff responsible for FFR submission does not already have an account with PMS, please [Contact PMS](#) to obtain access.

STANDARD TERMS:

1) Acceptance of the Terms of an Award

By drawing or otherwise obtaining funds from the HHS Payment Management System, the recipient acknowledges acceptance of the terms and conditions of the award and is obligated to perform in accordance with the requirements of the award. Except for any waiver granted explicitly elsewhere in this section, this award does not constitute approval for waiver of any Federal statutory/regulatory requirements for a SABG. Once a recipient accepts an award, the contents of the Notice of Award (NoA) are binding on the recipient unless and until modified by a revised NoA signed by the GMO.

Certification Statement:

By drawing down funds, The recipient agrees to abide by the statutory requirements of all sections of the Substance Abuse Prevention and Treatment Block Grant (SABG) (Public Health Service Act, Sections 1921-1935 and sections 1941-1957) (42 U.S.C. 300x-21-300x-35 and 300x-51-300x-67, as amended), and other administrative and legal requirements as applicable for the duration of the award.

2) SABG Administrative Requirements

This NoA issued is subject to the administrative requirements for HHS block grants under 45 CFR Part 96, as applicable, and 45 CFR Part 75, as specified. Except for section 75.202 of Subpart C, and sections 75.351 through 75.353 of Subpart D, the requirements in Subpart C, Subpart D, and Subpart E do not apply to this program (reference 45 CFR Part 75 Subpart B, 75.101(d)).

Except for any waiver granted explicitly elsewhere in this section, this award does not constitute approval for waiver of any Federal statutory/regulatory requirements for a SABG.

3) Flowdown of requirements to sub-recipients

The grantee, as the awardee organization, is legally and financially responsible for all aspects of this award including funds provided to sub-recipients, in accordance with 45 CFR 75.351 75.353, Sub-recipient monitoring and management.

4) Availability of Funds

Funds awarded under this grant must be obligated and expended by September 30, 2022.

Recipients must liquidate all obligations incurred under an award not later than ninety (90) days after the end of the award obligation and expenditure period (i.e., the project period) which also coincides with the due date for submission of the FINAL SF-425, *Federal Financial Report* (FFR). After ninety (90) days, letter of credit accounts are locked. SAMHSA does not approve extensions to the ninety (90) day post-award reconciliation/liquidation period. Therefore, recipients are expected to complete all work and reporting within the approved project period and the aforementioned 90-day post-award reconciliation/liquidation period. Recipients (late) withdrawal requests occurring after the aforementioned periods are denied. In rare instances, SAMHSA may approve an extension to submit a FINAL SF-425 FFR report, but this is *not* an extension of the 90-day post award reconciliation/liquidation period, but rather only an extension to submit the Final SF-425 report (FFR).

5) Executive Pay

The Consolidated Appropriations Act, 2020 (P.L. 116-94) signed into law on December 20, 2019 restricts the amount of direct salary to Executive Level II of the Federal Executive pay scale. The Executive Level II salary was increased to \$197,300 effective January 2020.

For awards issued prior to this change, if adequate funds are available in active awards, and if the salary cap increase is consistent with the institutional base salary, recipients may rebudget to accommodate the current Executive Level II salary level. However, no additional funds will be provided to these grant awards.

6) Marijuana Restriction

Grant funds may not be used, directly or indirectly, to purchase, prescribe, or provide marijuana or treatment using marijuana. Treatment in this context includes the treatment of opioid use disorder. Grant funds also cannot be provided to any individual who or organization that provides or permits marijuana use for the purposes of treating substance use or mental disorders. See, e.g., 45 C.F.R. § 75.300(a) (requiring HHS to “ensure that Federal funding is expended . . . in full accordance with U.S. statutory . . . requirements.”) 21 U.S.C. §§ 812(c)(10) and 841 (prohibiting the possession, manufacture, sale, purchase or distribution of marijuana). This prohibition does not apply to those providing such treatment in the context of clinical research permitted by the DEA and under an FDA-approved investigational new drug application where the article being evaluated is marijuana or a constituent thereof that is otherwise a banned controlled substance under federal law.

9) Mandatory Disclosures

Consistent with 45 CFR 75.113, applicants and recipients must disclose in a timely manner, in writing to the HHS Office of Inspector General (OIG), all information related to violations, or suspected violations, of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Subrecipients must disclose, in a timely manner, in writing to the prime recipient (pass through entity) and the HHS OIG, all information related to violations, or suspected violations, of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Disclosures must be sent in writing to the awarding agency and to the HHS OIG at the following addresses:

Failure to make required disclosures can result in any of the remedies described in 45 CFR 75.371 remedies for noncompliance, including suspension or debarment (see 2 CFR parts 180 & 376 and 31 U.S.C. 3321).

10) The Trafficking Victims Protection Act of 2000 (22 U.S.C. 7104(G)), as amended, and 2 C.F.R. PART 175

The Trafficking Victims Protection Act of 2000 authorizes termination of financial assistance provided to a private entity, without penalty to the Federal government, if the recipient or subrecipient engages in certain activities related to trafficking in persons. SAMHSA may unilaterally terminate this award, without penalty, if a private entity recipient, or a private entity subrecipient, or their employees:

- a) Engage in severe forms of trafficking in persons during the period of time that the award is in effect;
- b) Procure a commercial sex act during the period of time that the award is in effect; or,
- c) Use forced labor in the performance of the award or subawards under the award.

The text of the full award term is available at 2 C.F.R. 175.15(b). See <http://www.gpo.gov/fdsys/pkg/CFR-2012-title2-vol1/pdf/CFR-2012-title2-vol1-sec175-15.pdf>.

11) Drug-Free Workplace Requirements

The Drug-Free Workplace Act of 1988 (41 U.S.C. 701 et seq.) requires that all organizations receiving grants from any Federal agency agree to maintain a drug-free workplace. When the AR signed the application, the AR agreed that the recipient will provide a drug-free workplace and will comply with the requirement to notify SAMHSA if an employee is convicted of violating a criminal drug statute.

Failure to comply with these requirements may be cause for debarment. Government wide requirements for Drug-Free Workplace for Financial Assistance are found in 2 CFR part 182; HHS implementing regulations are set forth in 2 CFR part 382.400. All recipients of SAMHSA grant funds must comply with the requirements in Subpart B (or Subpart C if the recipient is an individual) of Part 382.

12) Lobbying

No funds provided under the attached Notice of Award (NoA) may be used by you or any sub-recipient under the grant to support lobbying activities to influence proposed or pending federal or state legislation or appropriations. The prohibition relates to the use of federal grant funds and is not intended to affect your right or that of any other organization, to petition Congress or any other level of government, through the use of other nonfederal resources.

Reference 45 CFR Part 93.

13) Accessibility Provisions

Grant recipients of Federal financial assistance (FFA) from HHS must administer their programs in compliance with Federal civil rights law. This means that recipients of HHS funds must ensure equal access to their programs without regard to a person's race, color, national origin, disability, age, and in some circumstances, sex and religion. This includes ensuring your programs are accessible to persons with limited English proficiency.

The HHS Office for Civil Rights also provides guidance on complying with civil rights laws enforced by HHS. Please see

<http://www.hhs.gov/ocr/civilrights/understanding/section1557/index.html>. Recipients of FFA also have specific legal obligations for serving qualified individuals with disabilities. Please see

<http://www.hhs.gov/ocr/civilrights/understanding/disability/index.html>. Please contact the HHS Office for Civil Rights for more information about obligations and prohibitions under Federal civil rights laws at <https://www.hhs.gov/civil-rights/index.html> or call 1-800-368-1019 or TDD 1-800-537-7697.

Also note that it is an HHS Departmental goal to ensure access to quality, culturally competent care, including long-term services and supports, for vulnerable populations. For further guidance on providing culturally and linguistically appropriate services, recipients should review the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care at <https://minorityhealth.hhs.gov/omh/browse.aspx?lvl=1&lvlid=6>.

14) Federal Recognition of Same-Sex Spouses/Marriages

On June 26, 2013, in *United States v. Windsor*, the Supreme Court held that section 3 of the Defense of Marriage Act (DOMA) (P.L. 104-199), which prohibited federal recognition of same-sex marriages, was unconstitutional. As a result of that decision and consistent with HHS policy, SAMHSA recognizes same-sex marriages and same-sex spouses on equal terms with opposite sex-marriages and opposite-sex spouses, regardless of where the couple resides.

On June 26, 2015, in *Obergefell v. Hodges*, the Court held that the Fourteenth Amendment requires a State to license a marriage between two people of the same sex and to recognize a marriage between two people of the same sex when their marriage was lawfully licensed and performed out-of-state. Consistent with both of these decisions, you must treat as valid the marriages of same-sex couples. This policy does not apply to registered domestic partnerships, civil unions or similar formal relationships recognized under state law as something other than a marriage.

15) Audits

Non-Federal recipients that expend \$750,000 or more in federal awards during the recipient's fiscal year must obtain an audit conducted for that year in accordance with the provisions of 45 CFR 96.31.

Recipients are responsible for submitting their Single Audit Reports and the Data Collections Forms (SF-FAC) electronically to the the Federal Audit Clearinghouse Visit disclaimer page (FAC) within the earlier of 30 days after receipt or nine months after the FY s end of the audit period. The FAC operates on behalf of the OMB.

For specific questions and information concerning the submission process:
Visit the Federal Audit Clearinghouse at <https://harvester.census.gov/facweb>
Call FAC at the toll-free number: (800) 253-0696

16) Tobacco

The state is required to maintain methodologically sound procedures for the measurement of compliance with the tobacco requirements listed in the application. Although improvement in the following activities is encouraged, all modifications in the conduct of the following activities must be approved by the Substance Abuse and Mental Health Services Administration's Center for Substance Abuse Prevention prior to implementation:

Activities described in Annual Synar Report Appendix B that include: (a) creation of the sampling frame, (b) probability sampling of tobacco outlets that meets the SAMHSA precision requirement of 3 percentage point for the retailer violation rate with respect to a right-sided 95% confidence level;

Activities described in Annual Synar Report Appendix C that include: (a) methods of recruitment and training of adult and youth inspectors, (b) method of verifying age of inspectors, (c) method of accounting for distribution of youth and (d) purchase attempt procedures; and

Synar reporting procedures.

These procedures are designed to ensure that violation rates for the state may be estimated in a valid and stable fashion from year to year.

2) The state is required to complete all random, unannounced inspections for the annual Synar survey for the Federal Fiscal Year 2022 application by September 30, 2021.

3) The state is required to use minors 15 years old and older in the conduct of all random, unannounced inspections for the annual Synar survey.

4) The state is required to maintain a retailer violation rate at 20 percent or below in order to comply with the requirements of section 1926 of the Public Health Services Act.

SAPT Application	Target Rate
FFY 2022	20 percent
FFY 2023	20 percent

17) Submitting Responses to Conditions and Reporting Requirements

Unless otherwise identified in the special terms and conditions of award and post award requests, all responses to special terms and conditions of award and post award requests must be sent to the Grants Management Specialist and the Government Program Official as identified in the Notice of Award.

The grant or cooperative agreement award number MUST be included in the SUBJECT line of the email.

SABG Reporting Requirements

1. Federal Financial Report (FFR)

The recipient is required to submit a Federal Financial Report (FFR) by **December 29, 2022** which is 90 days after the close of the statutory grant period (45 CFR 96.30). The SF-425 shall report total funds obligated and total funds expended by the grantee.

The SF-425 is available at (<http://apply07.grants.gov/apply/forms/sample/SF425-V1.0.pdf>).

The final FFR must be submitted via Payment Management System.

Recipients must liquidate all obligations incurred under an award not later than ninety (90) days after the end of the award obligation and expenditure period (i.e., the project period) which also coincides with the due date for submission of the FINAL SF-425, *Federal Financial Report* (FFR). After ninety (90) days, letter of credit accounts are locked. SAMHSA does not approve extensions to the ninety (90) day post-award reconciliation/liquidation period. Therefore, recipients are expected to complete all work and reporting within the approved project period and the aforementioned 90-day post-award reconciliation/liquidation period. Recipients (late) withdrawal requests occurring after the aforementioned periods are denied. In rare instances, SAMHSA may approve an extension to submit a FINAL SF-425 FFR report, but this is *not* an extension of the 90-day post award reconciliation/liquidation period, but rather only an extension to submit the Final SF-425 report (FFR).

2. Annual Report

There is an annual report due by **December 1** of the fiscal year for which the State is seeking a grant. Grant awards will not be made without the report required under 96.130(e).

Title XIX, Part B, Subpart III of the Public Health Service Act (42 U.S.C. 300x-52(a)), requires the secretary of the Department of Health and Human Services, acting through the Assistant Secretary of the Substance Abuse and Mental Health Services Administration (SAMHSA), to determine the extent to which states and jurisdictions have implemented the state plan for the prior fiscal year. The purpose of the annual report is to provide information to assist the secretary in making this determination. States and jurisdictions are requested to prepare and submit their reports for the last completed state fiscal year (SFY), in the format provided in the guidance (<https://www.samhsa.gov/grants/block-grants>). The report must address the purposes for which the SABG were expended, the recipients of grant funds, and the authorized activities conducted, and services purchased with such funds. Particular attention should be given to the progress made toward accomplishing the goals and performance indicators identified in the grantee's SABG application. Grantees are required to prepare and submit their respective reports utilizing SAMHSA's Web Block Grant Application System (BGAS). This report must be received by SAMHSA no later than **December 1, 2021** in order for the grantee to receive its next grant. Failure to comply with these requirements may cause the initiation of enforcement actions that can culminate in discontinuation of SABG grants.

The report must be submitted via the electronic interface, WebBGAS by **December 1, 2021**. Please contact your Government Program Official (State Project Officer) for additional submission information.

3. Synar Report

There is a Synar report due by **December 31** of the fiscal year for which the State is seeking a grant. Grant awards may be reduced without the report required under 96.130(e).

Section 1926 of the Public Health Service Act (42 U.S.C. 300x-26) requires States receiving SABG funds to have in effect a law providing that it is unlawful for any manufacturer, retailer, or distributor of tobacco products to sell or distribute any such product to any individual under the age of 18. States must also annually submit a report describing (i) the activities carried out by the State to enforce such law during the fiscal year preceding the fiscal year for which the State is seeking the grant; (ii) the extent of success the State has achieved in reducing the availability of tobacco products to individuals under the age of 18; and (iii) the strategies to be utilized by the State for enforcing such law during the fiscal year for which the grant is sought.

In accordance with the regulatory requirements provided at 45 CFR 75.113 and Appendix XII to 45 CFR Part 75, recipients that have currently active Federal grants, cooperative agreements, and procurement contracts with cumulative total value greater than \$10,000,000 must report and maintain information in the System for Award Management (SAM) about civil, criminal, and administrative proceedings in connection with the award or performance of a Federal award that reached final disposition within the most recent five-year period. The recipient must also make semiannual disclosures regarding such proceedings. Proceedings information will be made publicly available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIS)). Full reporting requirements and procedures are found in Appendix XII to 45 CFR Part 75.

Fiscal Year 2022 – Award Standard Terms

Name	Language
1 Acceptance of the Terms of an Award	<p>By drawing or otherwise obtaining funds from the Health and Human Services (HHS) Payment Management System, the recipient acknowledges acceptance of the terms and conditions of the award and is obligated to perform in accordance with the requirements of the award. If the recipient cannot accept the terms, the recipient should notify the Grants Management Officer (GMO) within thirty (30) days of receipt of this award notice. Once an award is accepted by a recipient, the contents of the Notice of Award (NoA) are binding on the recipient unless and until modified by a revised NoA signed by the GMO.</p> <p>Certification Statement: By drawing down funds, the recipient certifies that proper financial management controls and accounting systems, to include personnel policies and procedures, have been established to adequately administer Federal awards and funds drawn down. Recipients of Department of Health and Human Services' (DHHS) grants or cooperative agreement awards must comply with all terms and condition of their awards, including: (a) terms and conditions included in the HHS Grants Policy Statement in effect at the time of a new, non-competing continuation, or renewal award, including the requirements of HHS grants administration regulations; (b) requirements of the authorizing statutes and implementing regulations for the program under which the award is funded; (c) applicable requirements or limitations in appropriations acts; and (d) any requirements specific to the particular award specified in program policy and guidance, the Notice of Funding Opportunity (NOFO), or the Notice of Award (NoA).</p>
2 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for HHS Awards	<p>The NoA issued is subject to the administrative requirements, cost principles, and audit requirements that govern Federal monies associated with this award, as applicable, in the Uniform Guidance – 2 Code of Federal Regulations (CFR) § 200 as codified by HHS at 45 CFR § 75.</p>
3 Award Expectations	<p>The eligibility and program requirements originally outlined in the NOFO must continue to be adhered to as the funded project is implemented. Recipients must comply with the performance goals, milestones, outcomes, and performance data collection as reflected in the NOFO and related policy and guidance. Additional terms and/or conditions may be applied to this award if outstanding financial or programmatic compliance issues are identified by Substance Abuse and Mental Health Services Administration (SAMHSA).</p>
4 Flow down of requirements to sub-recipients	<p>The recipient, as the awardee organization, is legally and financially responsible for all aspects of this award including funds provided to sub-recipients, in accordance with 45 CFR § 75.351 – 75.352, Sub-recipient monitoring and management.</p>
5 Future Funding	<p>As indicated in the NoA, recommended future support reflects total costs (direct plus indirect). Funding is subject to the availability of Federal funds and satisfactory progress of the project.</p>
6 Non-Supplant	<p>Federal award funds must supplement, not replace (supplant) nonfederal funds. All recipients who receive awards under programs that prohibit supplanting by law must ensure that federal funds do not supplant funds that have been budgeted for the same purpose through non-federal sources. Applicants or award recipients may be required to demonstrate and document that a reduction in non-federal resources occurred for reasons other than the receipt of expected receipt of federal funds.</p>

Name	Language
7 Unallowable Costs	All costs incurred prior to the award issue date and costs not consistent with the funding opportunity, 45 CFR § 75 , and the HHS Grants Policy Statement , are not allowable under this award.
8 Conflicts of Interest Policy	<p>Consistent with 45 CFR § 75.112, recipients must establish written policies and procedures to prevent employees, consultants, and others (including family, business, or other ties) involved in grant-supported activities, from involvement in actual or perceived conflicts of interest. The policies and procedures must:</p> <ul style="list-style-type: none"> • address conditions under which outside activities, relationships, or financial interest are proper or improper; • provide for advance disclosure of outside activities, relationships, or financial interest to a responsible organizational official; • include a process for notification and review by the responsible official of potential or actual violations of the standards; and • specify the nature of penalties that may be imposed for violations.
9 Administrative and National Policy Requirements	Public policy requirements are requirements with a broader national purpose than that of the Federal sponsoring program or award that an applicant/recipient must adhere to as a prerequisite to and/or condition of an award. Public policy requirements are established by statute, regulation, or Executive order. In some cases they relate to general activities, such as preservation of the environment, while, in other cases they are integral to the purposes of the award-supported activities. An application funded with the release of federal funds through a grant award does not constitute or imply compliance with federal statute and regulations. Funded organizations are responsible for ensuring that their activities comply with all applicable federal regulations.
10 Carryover - Expanded Authority for Unobligated Balances from One Budget Period to Any Subsequent Budget Period	<p>Federal administrative requirements allow agencies to provide recipients with expanded authorities, which waive certain cost-related and administrative prior approvals under certain conditions.</p> <p>Per 45 CFR § 75.308 (d)(3), SAMHSA has extended expanded authority to recipients requesting carryover of unobligated balances (UOB) up to 25% or less of the current budget period (year when the funds are needed) provided that recipients are not on drawdown restriction.</p> <p>Recipients requesting a carryover greater than 25% of the current budget period award cannot exercise this expanded authority.</p> <p>Recipients who exercise expanded authority MUST include an Intent to Carryover statement in the Remarks section (box 12) of the annual Federal Financial Report (FFR).</p> <p>Expanded authority may be overridden by other special terms or conditions of the award. Recipients must carefully review the Notice of Award to determine if a particular authority is withheld for a specific award.</p> <p>Recipients must exercise proper stewardship over Federal funds and ensure that costs charged to awards are allowable, allocable, reasonable, necessary, and consistently applied regardless of the source of funds.</p> <p><i>Additional Guidance:</i> https://www.samhsa.gov/grants/grants-management/post-award-amendments#carryover</p>

11	Name Marijuana Restriction	Language
		SAMHSA grant funds may not be used to purchase, prescribe, or provide marijuana or treatment using marijuana. See, e.g., 45 CFR § 75.300(a) (requiring HHS to ensure that Federal funding is expended in full accordance with U.S. statutory and public policy requirements); 21 U.S.C. 812(c)(10) and 841 (prohibiting the possession, manufacture, sale, purchase or distribution of marijuana).
12	Prior Approval	<p>SAMHSA anticipates that the recipient may need to modify the recipient's award budget or other aspects of its approved application during performance to accomplish the award's programmatic objectives. In general, recipients are allowed a certain degree of latitude to re-budget within and between budget categories to meet unanticipated needs and to make other types of post-award changes, provided that the changes still meet the statutory program requirements and the regulatory requirements under 45 CFR § 75, as applicable.</p> <p>Items that require prior approval (i.e. formal written approval) from the GMO, as indicated in either 45 CFR § 75 or the HHS Grants Policy Statement, must be submitted in writing to the GMO. Based on the nature, extent, and timing of the request, the SAMHSA GMO may approve, deny, or request additional material to further document and evaluate your request.</p> <p>Only an amended NoA signed by the GMO is considered valid. Verbal authorization is not approval and is not binding on SAMHSA. Recipients who proceed do so at their own risk.</p> <p>Prior approval is required for but is not limited to: Changes in Key Personnel and Level of Effort, Budget Revisions, Changes in Scope, Carryover Requests (that fall outside the term for the Expanded Authority for Carryover), and No Cost Extensions. A summary of activities that require prior approval is listed in the HHS Grants Policy Statement under Exhibit 5, Page II-49.</p> <p>SAMHSA instructions regarding requests for prior approval are available at: https://www.samhsa.gov/grants/grants-management/post-award-amendments</p>
13	Executive Pay	<p>The Consolidated Appropriations Act, 2021 (Public Law 116-260), signed into law on December 27, 2020 restricts the amount of direct salary to Executive Level II of the Federal Executive Pay scale. Effective January 3, 2021, the salary limitation for Executive Level II is \$199,300.</p> <p>For awards issued prior to this change, if adequate funds are available in active awards, and if the salary cap increase is consistent with the institutional base salary, recipients may re-budget to accommodate the current Executive Level II salary level. However, no additional funds will be provided to these grant awards.</p>
14	Promotional Items	<p>SAMHSA grant funds may not be used for Promotional Items. Promotional items include but are not limited to clothing and commemorative items such as pens, mugs/cups, folders/folios, lanyards, and conference bags.</p> <p>HHS Policy on the Use of Appropriated Funds for Promotional Items: https://www.hhs.gov/grants/contracts/contract-policies-regulations/spending-on-promotional-items/index.html</p>
