Report of Progress Toward Goal Attainment

First Year Target: Achieved Not Achieved (if not achieved, explain why)

Reason why target was not achieved, and changes proposed to meet target:

How first year target was achieved (optional):

During the reporting period, our collaboration with public schools increased our service implementation as we were able to meet consumers at the school and have successful wraparound meetings. Majority of the consumers experienced transportation and communication barriers, and with the assistance of the schools we were able to effectively connect.

Our goals to train school staff and personnel in Mental Health First Aid is in the plan for the upcoming fiscal year, as we have been connecting with the School District Psychology Team in scheduling trainings and coaching.

Consumers in the youth and young adult population experiencing FEP are able to avail of CBT-p counseling, wraparound services, and have a community program aid assist in navigating through their treatment. We have been able to successfully establish employment for 5 consumers.

Priority #: 2

Priority Area: Families/youths involved in wraparound service and planning

Priority Type: MHS

Population(s): SMI, SED, ESMI

Goal of the priority area:

Families/youths are actively involved in the development and implementation of service plans

Objective:

Families/youths will receive orientation on service planning and participation of care

Strategies to attain the goal:

coordination with families;
timely team meetings

For FY22, our program enrolled and provide wraparound services to 201 children/families. Each child/family received care coordination services and participated in the shared decision making process during wrap care planning.

Priority #:

3

Priority Area:

Transition Services

Priority Type:

MHS

Population(s):

SMI, SED, ESMI

Goal of the priority area:

Transition aged youths will seamlessly transition into adult services or other appropriate services

Objective:

Improve transition and warm hand-off between youth and adult services

Strategies to attain the goal:

Annual review of transition protocols;
Provide periodic training to staff on transition protocol;
Update families on the transition process periodically
Provide information to partner agencies on the transition process to ensure support of the transitioning youth and decrease disruption of services

Report of Progress Toward Goal Attainment

First Year Target:

Achieved

Not Achieved (if not achieved,explain why)

Reason why target was not achieved, and changes proposed to meet target:

Target was not achieved, 9 transitions to adult services occurred in FY22. Target not met due to numerous factors: 1) of the total service population, only a small proportion represented youth of age to transition (17-18 years old), 2) of the total service population of 17 & 18 year olds, only a small proportion were ready for graduation and not continuing in school due to having an IEP or some other accommodation that extended their schooling, 3) of the total service population meeting criteria for transition, not all clients needed to continue in adult services and successfully graduated from needing further supports. Proposed changes include re-examining target goal for transition and refining policy and protocol for transition within the organization and to external partners.

Report of Progress Toward Goal Attainment

First Year Target:

Achieved

Not Achieved (if not achieved,explain why)

Reason why target was not achieved, and changes proposed to meet target:

13 youth successfully graduated high school for FY22. Target was not achieved due to multiple factors including: 1) reduced enrollment of clients eligible for high school graduation (e.g. students who were not yet in the 12th grade or who were not continuing in school on an IEP), 2) youth struggled in transition from virtual school work to in-person classes, potentially impacting the number of individuals able to successfully graduate from high school. Changes to meet target includes ensuring that academic accomplishment/graduation is included as part of each youth client's treatment plan in order to track progress and ensure necessary supports for goal attainment can be involved.

^a The 24-month expenditure period for the COVID-19 Relief supplemental funding is **March 15, 2021 – March 14, 2023**, which is different from the expenditure period for the “standard” MHBG. Per the instructions, the standard MHBG expenditures captured in Columns A - C are for the state expenditure period of July 1 – June 30 of the same year for most states. Column B should reflect the spending for the state reporting period. The total may reflect the COVID-19 Relief allotment portion used during the state budget reporting period.

^b The expenditure period for The American Rescue Plan Act of 2021 (ARP) supplemental funding is **September 1, 2021 – September 1, 2025**, which is different from the expenditure period for the “standard” MHBG. Per the instructions, the standard MHBG expenditures captured in Columns A – C are for the state expenditure period of July 1 – June 30 of the same year, for most states. Column C should reflect the spending for the state reporting period. The total may reflect the ARP allotment portion used during the state reporting period.

MHBG Table 10A and MHBG Table 10B (URS Tables 5A and 5B) - Profile of Clients by Type of Funding Support

Table 10A

This table provides a summary of clients by Medicaid coverage. Since the focus of the reporting is on clients of the public mental health service delivery system, this table focuses on the clientele serviced by public programs that are funded or operated by the State Mental Health Authority. Persons are to be counted in the Medicaid row if they received a service reimbursable through Medicaid.

Please note that the same person may be served in both Medicaid and Non-Medicaid programs during the same reporting period.

Each row should have a unique (unduplicated) count of clients: (1) Medicaid Only, (2) Non-Medicaid Only, (3) Both Medicaid and Other Sources funded their treatment, and (4) Medicaid Status Not Available.

If a state is unable to differentiate between people whose care is paid for by Medicaid only or Medicaid and other funds, then all data should be reported into the 'People Served by Both Medicaid and Non-Medicaid Sources' and the 'People Served by Both includes people with any Medicaid' check box should be checked.

MHBG Table 15A (URS Table 4) - Profile of Adult Clients by Employment Status

This table describes the status of adult clients served in the reporting year by the public mental health system, in terms of employment status. The focus is on employment for the working age population, recognizing, however, there are clients who are disabled, retired, or who are homemakers, care-givers, etc., and not a part of the workforce. These persons should be reported in the "Not in Labor Force" category. Unemployed refers to persons who are looking for work but have not found employment. Data should be reported for clients in non-institutional settings at time of discharge or last evaluation.

MHBG Table 15B (URS Table 4A) - Optional Table: Profile of Adult Clients by Employment Status: by Primary Diagnosis Reported

The workgroup exploring employment found that, the primary diagnosis of consumer results in major differences in employment status. The workgroup has recommended that we explore the ability of states to report employment by primary diagnosis and the impact of diagnosis on employment. The workgroup recommended 5 diagnostic clusters for reporting.

Recommended Scoring Rules

Please use the same rules for reporting Social connectedness and Functioning Domain scores as for calculating other Consumer Survey Domain scores for Table MHBG Table 18a: E.g.:

1. Recode ratings of "not applicable" as missing values.
2. Exclude respondents with more than 1/3 of the items in that domain missing
3. Calculate the mean of the items for each respondent.
4. FOR ADULTS: calculate the percent of scores less than 2.5 (percent agree and strongly agree).
5. FOR YSS-F: calculate the percent of scores greater than 3.5 (percent agree and strongly agree).

* Report Confidence Intervals at the 95% confidence level

Note: The confidence interval is the plus-or-minus figure usually reported in newspaper or television opinion poll results. For example, if you use a confidence interval of 4 and 47% percent of your sample picks an answer you can be "sure" that if you had asked the question of the entire relevant population between 43% (47-4) and 51% (47+4) would have picked that answer. The confidence level tells you how sure you can be. It is expressed as a percentage and represents how often the true percentage of the population who would pick an answer lies within the confidence interval. The 95% confidence level means you can be 95% certain; the 99% confidence level means you can be 99% certain. Most researchers use the 95% confidence level. When you put the confidence level and the confidence interval together, you can say that you are 95% sure that the true percentage of the population is between 43% and 51%. MHBG Table 21 (URS Table 19A) - Profile of Criminal Justice or Juvenile Justice Involvement

1. The SAMHSA National Outcome Measure for Criminal Justice measures the change in Arrests over time.
2. If your SMHA has data on Arrest records from alternatives sources, you may also report that here. If you only have data for arrests for consumers in this year, please report that in the T2 columns. If you can calculate the change in Arrests from T1 to T2, please use all those columns.
3. Please complete the check boxes at the bottom of the table to help explain the data sources that you used to complete this table.
4. Please tell us anything else that would help us to understand your indicator (e.g., list survey or MIS questions; describe linking methodology and data sources; specify time period for criminal justice involvement; explain whether treatment data are collected).

What is the Total Number of Persons Surveyed or for whom Criminal Justice Data Are Reported

Child/Adolescents Adults

1. If data is from a survey, What is the total Number of people from which the sample was drawn?
2. What was your sample size? (How many individuals were selected for the sample)?
3. How many survey Contacts were made? (surveys to valid phone numbers or addresses)
4. How many surveys were completed? (survey forms returned or calls completed) If data source was not a Survey, How many persons were CJ data available for?
5. What was your response rate? (number of Completed surveys divided by number of Contacts)

State Comments/Notes: No Data Collected

Instructions: If you have responses to a survey by person not in the expected age group, you should include those responses with other responses from the survey (e.g., if a 16 or 17 year old responds to the Adult MHSIP survey, please include their responses in the Adult categories, since that was the survey they used)." to be included in BGAS form at the bottom of the page.

MHBG Table 22 (URS Table 19B) - Profile of Change in School Attendance

- The SAMHSA National Outcome Measure for School Attendance measures the change in days attended over time. The DIG Outcomes Workgroup pilot tested 3 consumer self-report items that can be used to provide this information. If your state has used the 3 Consumer Self-Report items on School Attendance, you may report them here.
- If your SMHA has data on School Attendance from alternative sources, you may also report that here. If you only have data for School attendance for consumers in this year, please report that in the T2 columns. If you can calculate the change in the Attendance from T1 to T2, please use all these columns.
- Please complete the check boxes at the bottom of the table to help explain the data sources that you used to complete this table.
- Please tell us anything else that would help us to understand your indicator (e. g., list survey or MIS questions; describe linking methodology and data sources; specify time period for criminal justice involvement; explain whether treatment data are collected).
