SECTION I. GENERAL INFORMATION

OVERVIEW: Formerly Department of Mental Health and Substance Abuse (DMHSA), Guam Behavioral Health and Wellness Center (hereinafter known as GBHWC) is requesting proposals for Guam non-profit professional services providing outpatient and intensive outpatient substance treatment for adolescent males and females, federally and locally funded (SAMHSA Substance Abuse Prevention & Treatment Block Grant, CFDA No. 93-959, and 10 GCA Section 86109).

Organizations interested in bidding for this project may submit proposals that are directed towards the targeted group, male and female adolescents. Applicants must be experienced with level I Outpatient and level II Intensive Outpatient services as specified by the American Society of Addiction Medicine (ASAM) Patient Placement Criteria, 2nd Revision and adopted by GBHWC. This project puts into action GBHWC's Strategic Planning goals to build capacity in the community for substance abuse services, and provide consumer-centered and family-centered services that are culturally compatible with the island community. In addition, it is consistent in carrying-out GBHWC's mandate to provide alcohol and drug programs and services for the people of Guam and to encourage the development of privately-funded community based programs to carry-out such programs and services (**10 GCA §86101**). Finally, it complies with planning, carrying-out, and evaluating activities to prevent and treat substance abuse (**45 CFR Part 96**), as funded by the Substance Abuse Prevention and Treatment (SAPT) Block Grant.

BACKGROUND: GBHWC is Guam's Single State Authority (SSA) for mental health and substance abuse services, and is mandated by local law (**10 GCA §86101 & §86109; added by P.L. 17-21**) to provide substance abuse inpatient and outpatient services, as well as to support non-profit community or faith-based organizations through partnering to provide such services. GBHWC is thereby specifically mandated to create a Guam Drug and Alcohol Detoxification, Rehabilitation, and Prevention Annual Grant Program ("...to **local non-profit organizations providing drug and alcohol detoxification, rehabilitation, and prevention services**") (**10 GCA §86109**).

One of the primary objectives of the Drug and Alcohol Branch of GBHWC is to increase treatment capacity through collaboration and leveraging of resources with community providers and to address gaps in services identified by Guam and its stakeholders. GBHWC has adopted the following national goals for Substance Abuse Treatment Capacity:

- Increase the number of treatment programs using evidence-based practices.
- Increase the percentage of people with substance abuse problems who receive treatment.
- Improve treatment outcomes for people receiving services.
- Make cultural adaptations to evidence-based models and practices for optimal use.

GBHWC Drug and Alcohol Branch New Beginnings currently provides and supports an array of comprehensive outpatient and residential drug and alcohol treatment programs and services for adolescents and adults. The Branch chose the American Society of Addiction Medicine Patient

Placement Model-2R (ASAM PPC-2R) as the primary reference guide source for Guam's substance treatment Continuum of Care. The Patient Placement Criteria (PPC) are guidelines (see: <http://www.asam.org/publications/patient-placement-criteria>), incorporated herein as if fully rewritten, developed by the American Society of Addiction Medicine (ASAM) that can be accurately used to assess the severity of patients' problems, so that they can be admitted to the most appropriate level of care (admission criteria), remain in that level of care (continuing care criteria) and be discharged from that level of care (discharge criteria).

The Branch currently provides Level 0.5 Early Intervention Services/Drug and Alcohol Education, Level I Outpatient, and Level II.1 Intensive Outpatient (ASAM Patient Placement 2nd Revision Model); other community and faith-based organizations provide Residential ASAM Level III.5 and III.2-D Treatment. The Guam Memorial Hospital provides Level IV for consumers needing (acute care) medical detoxification. This allows consumers to move from one level of care to another, depending on their intensity of services needed and as determined by a bio-psychosocial assessment (based on six patient problem areas: ASAM dimension model).

Therefore, GBHWC is committed and in support of providing expanded treatment capacity for Outpatient and Intensive Outpatient services in Guam. **The services must address adolescent males and females.** The service proposals must meet the criteria for services as defined in the scope of work to increase treatment capacity of the various treatment modalities needed for the community of Guam. When the capacities of these levels of care are increased, the number of consumers currently on the wait-list for services is expected to reduce significantly, while providing more timely treatment, fulfilling a national recommendation from the Center of Substance Abuse Treatment (CSAT), Substance Abuse Mental Health Services Administration (SAMHSA), US Department of Health & Human Services, a block grant funder of Guam.

M. Duration of Contract or Term of Service

invoice amount after applying any penalties or disallowed costs, shall be withheld until the discrepancy has been resolved to the satisfaction of GBHWC.

Business Associate Contracts

SAMPLE BUSINESS ASSOCIATE AGREEMENT PROVISIONS

(Published January 25, 2013 by US Dept. of Health and Human Services)

Introduction

A “business associate” is a person or entity, other than a member of the workforce of a covered entity, who performs functions or activities on behalf of, or provides certain services to, a covered entity that involve access by the business associate to protected health information. A “business associate” also is a subcontractor that creates, receives, maintains, or transmits protected health information on behalf of another business associate. The HIPAA Rules generally require that covered entities and business associates enter into contracts with their business associates to ensure that the business associates will appropriately safeguard protected health information. The business associate contract also serves to clarify and limit, as appropriate, the permissible uses and disclosures of protected health information by the business associate, based on the relationship between the parties and the activities or services being performed by the business associate. A business associate may use or disclose protected health information only as permitted or required by its business associate contract or as required by law. A business associate is directly liable under the HIPAA Rules and subject to civil and, in some cases, criminal penalties for making uses and disclosures of protected health information that are not authorized by its contract or required by law. A business associate also is directly liable and subject to civil penalties for failing to safeguard electronic protected health information in accordance with the HIPAA Security Rule.

A written contract between a covered entity and a business associate must: (1) establish the permitted and required uses and disclosures of protected health information by the business associate; (2) provide that the business associate will not use or further disclose the information other than as permitted or required by the contract or as required by law; (3) require the business associate to implement appropriate safeguards to prevent unauthorized use or disclosure of the information, including implementing requirements of the HIPAA Security Rule with regard to electronic protected health information; (4) require the business associate to report to the covered entity any use or disclosure of the information not provided for by its contract, including incidents that constitute breaches of unsecured protected health information; (5) require the business associate to disclose protected health information as specified in its contract to satisfy a covered entity’s obligation with respect to individuals’ requests for copies of their protected health information, as well as make available protected health information for amendments (and incorporate any amendments, if required) and accountings; (6) to the extent the business associate is to carry out a covered entity’s obligation under the Privacy Rule, require the business associate to comply with the requirements applicable to the obligation; (7) require the business associate to make available to HHS its internal practices, books, and records relating to the use and disclosure of protected health information received from, or created or received by the business associate on behalf of, the covered entity for purposes of HHS determining the covered entity’s compliance with the HIPAA Privacy Rule; (8) at termination of the contract, if feasible, require the business

associate to return or destroy all protected health information received from, or created or received by the business associate on behalf of, the covered entity; (9) require the business associate to ensure that any subcontractors it may engage on its behalf that will have access to protected health information agree to the same restrictions and conditions that apply to the business associate with respect to such information; and (10) authorize termination of the contract by the covered entity if the business associate violates a material term of the contract. Contracts between business associates and business associates that are subcontractors are subject to these same requirements.

This document includes sample business associate agreement provisions to help covered entities and business associates more easily comply with the business associate contract requirements. While these sample provisions are written for the purposes of the contract between a covered entity and its business associate, the language may be adapted for purposes of the contract between a business associate and subcontractor.

This is only sample language and use of these sample provisions is not required for compliance with the HIPAA Rules. The language may be changed to more accurately reflect business arrangements between a covered entity and business associate or business associate and subcontractor. In addition, these or similar provisions may be incorporated into an agreement for the provision of services between a covered entity and business associate or business associate and subcontractor, or they may be incorporated into a separate business associate agreement. These provisions address only concepts and requirements set forth in the HIPAA Privacy, Security, Breach Notification, and Enforcement Rules, and alone may not be sufficient to result in a binding contract under State law. They do not include many formalities and substantive provisions that may be required or typically included in a valid contract. Reliance on this sample may not be sufficient for compliance with State law, and does not replace consultation with a lawyer or negotiations between the parties to the contract.

Software licenses, leases, maintenance and other unexpired agreements that were entered into under the terms and conditions of this Agreement shall survive this Agreement.

SECTION XXXII. PROPRIETARY INFORMATION

Proprietary information for the purpose of this Agreement is information relating to a party's research, development, trade secrets, business affairs, internal operations and management procedures and those of its customers, clients or affiliates, but does not include information lawfully obtained by third parties, which is in the public domain, or which is developed independently.

Neither party shall use or disclose directly or indirectly without prior written authorization any proprietary information concerning the other party obtained as a result of this contract. Any proprietary information removed from GBHWC's site by Service Provider in the course of providing services under this Agreement will be accorded at least the same precautions as are employed by Service Provider for similar information in the course of its own business.

SECTION XXXIII. CONFLICT OF INTEREST

In keeping with 2 CFR §200.112 Service Provider agrees as follows:

During the term of this Agreement, Service Provider will not engage in any business or personal activities or practices or maintain any relationships which conflict in any way with Service Provider fully performing its obligations under this Agreement.

Additionally, Service Provider acknowledges that, in governmental contracting, even the appearance of a conflict of interest is harmful to the interests of GBHWC.

Thus, Service Provider agrees to refrain from any practices, activities or relationships which could reasonably be considered to be in conflict with Service Provider's fully performing its obligations to GBHWC under the terms of this Agreement, without the prior written approval of GBHWC.

In the event that Service Provider is uncertain whether the appearance of a conflict of interest may reasonably exist, Service Provider shall submit to GBHWC a full disclosure statement setting forth the relevant details for GBHWC's consideration and direction. Failure to promptly submit a disclosure statement or to follow GBHWC's direction in regard to the apparent conflict will be grounds for termination of the contract.

Further, Service Provider will maintain a written code of standards governing the performance of its agent(s) engaged in the award and administration of contracts.

Neither Service Provider nor its agent(s) shall participate in the selection, or in the award or administration of a contract or subcontract supported by Federal or Local funds under this Agreement, if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

Neither Service Provider nor its agent(s) will solicit nor accept gratuities, favors, or anything of monetary value from Service Provider's potential subcontractor's, or parties to sub-agreements.

Service Provider will comply with Ethics in Public Contracting 5 GCA Chapter 5 Article 11 Ethics in Public Contracting and 2 GAR Division 4 Chapter 11.
